

ABHISHEK KUSHWAHA

Software Engineer | Machine Learning & Data Science

Lucknow, Uttar Pradesh, India | +91-7651865804 | abhishekkushwaha13405@gmail.com

[LinkedIn: linkedin.com/in/abhishek-kushwaha-36174629b](https://www.linkedin.com/in/abhishek-kushwaha-36174629b) | [GitHub: github.com/abhish13405](https://github.com/abhish13405)

PROFESSIONAL SUMMARY

Final-year B.Tech student specializing in Cloud Computing and Machine Learning, with a strong foundation in Python, Java, SQL, and AI/Data Science concepts. Experienced in database management, text data processing, prompt-response evaluation, and building and deploying machine learning models with measurable accuracy improvements. Seeking a Software Engineering, Machine Learning, or Data Science role to apply strong analytical, problem-solving, and programming skills.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Web Development: HTML, CSS, Flask, Django

Database: MySQL

AI / Machine Learning: Machine Learning, Data Science, Predictive Modeling, Classification, Regression

Libraries & Tools: NumPy, Pandas, Scikit-learn, NLTK, Tkinter, Streamlit

Development Tools: Git, GitHub, Linux, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST API, Data Processing, Database Management

PROJECTS

E-Commerce Sales Analysis Dashboard | *Python, Pandas, Streamlit*

https://github.com/Abhish13405/E_commerce_data

- Cleaned and analyzed a 45 MB+ e-commerce dataset using Python and Pandas.
- Built an interactive Streamlit dashboard to visualize revenue, customer behavior, sales trends, and product performance.
- Performed EDA and generated business insights through charts such as correlation heatmaps, revenue by country, sales by hour, and top customers/products.
- Exported customer-level and country-level summary reports for reporting and decision-making.

Rock vs Mine Detector (Machine Learning)

https://github.com/Abhish13405/rock_mine_defector-

- Developed a supervised learning classification model to distinguish between rocks and mines using sonar signal data.
- Implemented feature scaling, data preprocessing, and model evaluation to improve detection accuracy.
- Tested multiple classification algorithms and selected the best-performing model based on accuracy metrics.

PDF Merger UI (Web Tool)

https://github.com/Abhish13405/pdf_merger_ui

- Built a web-based tool with an intuitive user interface to merge multiple PDF files into a single document.
- Implemented file handling, upload validation, and a simple, user-friendly front-end workflow.
- Used Python (Flask) for backend logic and HTML/CSS for the front-end interface.

CERTIFICATIONS & ADDITIONAL SKILLS

Data Analysis with Python — IBM Developer Skills Network, Cognitive Class — May 2024

EDUCATION

B.Tech, Cloud Computing and Machine Learning — Babu Banarasi Das University, Lucknow

2023 – Present | CGPA: 8.0 / 10

Class XII (Intermediate) — Chacha Nehru Smarak Inter College

Percentage: 73.2%

Class X (High School) — Chacha Nehru Smarak Inter College

Percentage: 80.5%

STRENGTHS

- Strong analytical and problem-solving skills
- Quick learner with ability to adapt to new tools and technologies
- Effective communication and team collaboration

LANGUAGES

Hindi (Native), English (Professional Working Proficiency)
